TOGETHER
We stand apart
**FOR YOUR
SAFETY**

Staying six feet apart has become our new normal. But this pandemic has also done something completely the opposite; it brought us all closer together. We have all had a rough past few months, and the future is still uncertain. But together, we will get through this. Because even when we are standing six feet apart, when we stand together, we are stronger. Through our continued commitment to quality nursing and rehabilitation care, we, at Leisure Chateau, stand together with our community, our healthcare heroes, and YOU.
